Congratulating our new Cleaner of the Month

## WINDOW WASHING IN VENTURA COUNTY

As the months get colder, we find ourselves indoors where it is warm and cozy. Yet the grass is always greener on the other side. We look out our windows and long for the warmth of a spring breeze, but what is this? There are cobwebs blocking the view, and what the heck are those tiny specs that are all over the glass, and oh no, there is a big mess on the outside of the skylight left by a bird who seemingly had too many holiday cookies... Yuck... But èisteacht! (Gaelic for hark) Kelly Cleaning is here with the gift of clean windows and skylights!

Andres Working Hard!

Our Technicians have received specialized training to make sure that they make your view to the outside world as sparkling as possible. It's not only the glass that is the most important part, but also the painstaking labor to clean the casing, sills, grilles, handles, locks, sashes, tracks, runners and every other part of the framing anatomy.

Also, just to add some cheer to Holiday spirit, Kelly Cleaning will be offering a \$50 discount off of window cleaning services that equal or surpass \$300! Just mention the Kelly Solutions newsletter to receive your discount.

# SIERGE'S SOLUTION

## Dia Dhuit (JEE-uh Gwitch) = Hello

Dia Duit and may the road rise up to meet ye! Good tidings lads and lasses. In this special edition of my solutions, I'm going to give ye some useful tips and tricks that can help in gift wrapping endeavors. I will be giving them in short form just to make it as easy as possible for you to understand. If you have as much trouble as Kelly Cleaning's Marketing Director in wrapping presents, you're going to need as much help as you can get.

1. Prepare a workspace
2. Use the right tools for the job...
  - a. Scissor, double sided tape, regular tape
  - b. Don't be barbaric and use your hands (looking at you David)
3. Don't buy the cheapest wrapping paper you can get your hands on.
  - a. Buy something medium grade with great graphics
4. Carefully measure your wrapping paper twice before cutting
5. Put the face of your present facing down on your paper
  - a. Presentation is key and we don't want tape and paper seams going own the front of our gift
6. Add flair with extra accessories
  - a. Bows, twine, natural goods (leaves, twigs, mistletoe, pine cones)

With these six tips, you should be able to create a gift that's a cut above the rest. If you're looking for cleaning tips or if you have a question of your own, then give us a call at (805) 644-5308 or send us an email.
